

How to forward your landline phone to your mobile phone.

All BCL landline phones have the capability to be forwarded to mobile phones.

Some barristers may have a “Div Mob” shortcut key preset. Pressing this button will divert your landline phone to your mobile.

Landlines without this button can be manually set by:

Step 1 – Press the button closest to the “Forward” icon. This can look like one of the following icons (depending on phone model)

Step 2 – Select “Imm Fwd” or “Immediate Fwd”

Step 3 – Enter 35 followed by your mobile number. Eg. 350420671888

For further assistance, contact the BCL Service Desk during business hours.
