

# Juko Series

## Mark III IP66 LED Batten

The Shine On Juko IP66 Batten Light provides the perfect blend of highly efficient LED lighting technology, with robust ingress protection and durability. It boasts an impact-resistant IP66 rated polycarbonate enclosure, which encases a premium driver which, when combined with the latest LG 2835 LED chips, delivers a market-leading 145 lumens per watt. This is the ultimate lighting solution for demanding outdoor, dirty or wet environments.

### FEATURES AND BENEFITS

- High IK08 impact and corrosion-resistant polycarbonate housing. Suitable for the most demanding applications.
- Very high IP66 ingress protection. Suitable for outdoor, wet or dusty environments.
- Latest generation 2835 LED chips. Delivers up to 145 lumens per watt through a low glare polycarbonate diffuser.
- Stainless steel clips.
- Optimised for retrofit solutions. Quick and easy installation with multiple wiring options.
- Suitable for surface mounted and suspended applications.
- Microwave motion sensor and emergency options available.
- Premium Tridonic LED driver solution.
- Five year warranty.

### SPECIFICATIONS

Model	TPF-M3-1200-23W-50
Size	1,200mm
Power consumption*	23W
Output	3,360 lm
Efficiency	145 lm/W
Colour temperature	5,000K
CRI	>80
Beam angle	120°
IP rating	IP66
Lifetime rating	50,000 hours
Warranty	Five years
Source	Stock

\* Independently tested by an accredited (NATA MRA) laboratory.  
# 4,000K available on request.

### INDUSTRIES

Retail, hospitality, commercial offices, education, and industrial.

### OLD LIGHT TECHNOLOGIES

Fluorescent.
